

2000 EvoStamp+ PLUS® Pre-Ink

MSM Marking Devices
2000-PLUS Catalog

2014

The **e v o s t a m p +** series incorporates many of the advantages of our popular 2000 Plus Printer Line including:

Large index window for impression and allowing for customization.

Rubber feet to prevent the stamp from slipping while making an impression.

Assembling a flash stamp has never been so clean and easy. The pre-inked cartridges come with the retaining ring and ink cover. Remove the ink cover, place your flash die on the ink pad, snap on the retaining ring, and press down on your stamp mount to lock the cartridge in place.

The pre-inked ink cartridges are clean to use and have been filled with just the right amount of ink to ensure a speedy wicking time.
